Modular Approval for mobile RF exposure condition. This grant is valid only when the module is sold to OEM or OEM integrator. Only the antenna tested with the device or similar antennas with equal or lesser gain may be used with this transmitter. Co-location of this module with other transmitters that operate simultaneously is required to be evaluated using the FCC multi-transmitter procedures. The integrator must be provided with specific information required to satisfy RF exposure compliance for final host devices and installations. Compliance of this device in all final host configurations is the responsibility of the Grantee and may require the submission of a Class II permissive change or new application.
